DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 5-7, filed on August 13, 2007, with respect to claims 1-16 have been fully considered and are persuasive. The rejections of claims 1-16 have been withdrawn.

Allowable Subject Matter

2. Claims 1-16 are allowed.
3. The following is an examiner's statement of reasons for allowance.

The prior art of record, taken alone or in combination, does not teaches the design of a method for controlling a portable range extender as described on and including all the disclosed limitations of independent claim 1, comprising the steps of:

in response to a sensed rotational speed that meets a first predetermined speed threshold and a sensed engine temperature that meets a predetermined temperature threshold, supplying fuel to the engine and activating ignition of the engine for operation thereof as a prime mover; and

after a period of engine prime mover operation, activating the dynamoelectric machine for operation thereof as a generator to provide an electrical current output.

The prior art of record, taken alone or in combination, does not teaches the construction of a portable range extender as described on and including all the disclosed limitations of independent claim 11, wherein in response to a user input to the controller, a sequence of range extender operations is initiated including:

a first phase in which electrical energization is applied from the direct current source to the dynamoelectric machine for operation thereof as a motor to drive the shaft to start the engine in rotation;

a second phase in which the engine is activated for operation as a prime mover;
and

a third phase in which the dynamoelectric machine is activated in generator operation for providing electrical current to the vehicle.

Dependent claims 2-10 and 12-16 are considered allowable by their respective dependence on allowed independent claims 1 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
